Hi Jim,

Sediments team is in New York this week. I have a July 2015 version of Matt's Tier 1 spreadsheet, but do not appear to have the latest version on my computer (see attached). We can use that to do some comparisons....I'm just not sure that the PH site information is still accurate.

Mike

Subject: Ph press conf tomorrow

People are expecting Qs comparing PH to other sediment sites

Do you all have anything handy?

Items like

Size - length of river system - Est cost - cleanup time frames. CoCs
